A Conference for School Board members, Principals and Senior Staff

This conference has been designed to inform and challenge School Boards about the strategic environment in which they operate. Governors need to understand and respond to the external threats and opportunities all schools currently confront.

A range of outstanding keynote speakers will provide insight into the local, national and global contexts which impact independent schools.

Speakers include:

Professor Yong Zhao who will elaborate on the challenges presented during the 2015 conference. He will further explore the changes he believes schools should make in order to remain relevant to our students’ futures.

Mr Tony Harrison, Chief Executive, Department for Education & Child Development (DECD) will summarise the improvement agenda in South Australian Government schools.

Colette Colman, Executive Director, Independent Schools Council Australia, will provide a national overview of the strengths and challenges confronting Independent Schools.

A panel discussion comprising Ms Carolyn Hewson, AO, Dr Leoni Degenhardt, Dean of Leadership AISNSW and Professor David Lloyd, Vice Chancellor and President of the University of South Australia will explore the ways schools might be responsive to the changing educational and economic landscape.

The conference will be facilitated by Mr Tony MacKay, CEO of the Melbourne-based Centre for Strategic Education, Co-Director of the Global Education Leaders Programme (GELP) and Chair of the Innovation Unit Ltd, England.
